

## 4100.0 - Multi-Purpose Household Survey, Expanded Confidentialised Unit Record File, Technical Manual, 2006-07

Previous ISSUE Released at 11:30 AM (CANBERRA TIME) 29/02/2008

## Summary

### About this Release

**22/12/2009 Note:** The expanded confidentialised unit record file (CURF) for the 2006-07 Multi-Purpose Household survey now contains only one Socio-economic Index for Areas (SEIFA) instead of two when the product was first released on 29 February 2008. The index of Relative Socio-economic Advantage/Disadvantage has been removed from the expanded CURF leaving the index of Relative Socio-economic Disadvantage on the file. The change has been brought about by a review of the ABS' policy on the release of small area data available on expanded CURFs. The data item list has been amended to reflect this change, however the Technical Manual has not been updated and still contains reference to the index of Relative Advantage/Disadvantage. Further information regarding SEIFA indexes is available via the ABS' Information and Referral Service on 1300 135 070 or email [client.services@abs.gov.au](mailto:client.services@abs.gov.au).

Provides information about the data available from the Multi-Purpose Household Survey 2006-2007 in the form of an Expanded Confidentialised Unit Record File (CURF).

The Expanded CURF contains an expanded set of data items and is only accessible through the Remote Access Data Laboratory. For more information about accessing CURFs refer to the ABS web site <https://www.abs.gov.au> (see Services We Provide, CURFs)

The paper explains data content, technical details and conditions of use and is available on the ABS web site <https://www.abs.gov.au> (see Services We Provide, CURFs)
